

Sale Name: Annual Early Spring Eltopia Consignment Auction

LOT 821 - TMG-MS1220L 12'x20' Livestock Metal Shed

TMG INDUSTRIAL

This metal livestock shed can protect your outdoor animals from environmental hazards and keep them warm and dry at the same time.

This two-section storage shed, also known as open front shed, is designed to withstand windy weather and many years of wear and tear. It can also be used to keep house small tractors or lawn mowers.

Features:

- Skid mounted square tube base
- Pull eyelets on both ends
- All connection joints are required to be welded to reinforce durability and stability.

Specifications:

- 50 x 50 x 1.5(mm) square tubes for the base and main frames
- 20 x 60 x 1.2(mm) square tubes for secondary frames
- All tubes and plate panels are galvanized

Assembly:

- Approx. 4 hours welding time required for all connection joints
- Approx. 8 to 10 hours for two people to set up (welding time included)
- Assembly instruction included

Model: TMG-MS1220L
